Section 3: Reflections on the process and the sector

We greatly appreciate your partnership in reaching and supporting our Family Child Care community in Massachusetts.

We hope to share what we have learned with each other so that we can continue to build and strengthen the effectiveness and impact of the Massachusetts Early Childhood Funder community. To that end, please share your observations and reflections on the needs of the sector and on this grant process.

- A. Was early childhood broadly, or family child care specifically, a priority for your giving before your participation in MAFCEF? If not, why did you choose to participate in this partnership?

- B. If you are a community foundation or other place-based funder, did the MAFCEF match help you raise money in your community? Please tell us about that.

- C. Do you feel that our combined grantmaking was effective in bolstering the most vulnerable Family Child Care providers during the COVID-19 crisis? Why or why not?

D. One goal of the MAFCEF program was to strengthen the connection/understanding between Massachusetts funders and the Family Child Care community, including the Intermediaries who support providers. Did that happen for you? Why or why not?

E. Please share with us your reflections on this grant process

- a. What did you learn?
- b. What worked well?
- c. What could any of the partners in this initiative have done differently?

F. What, in your opinion, should philanthropy do as a next step to support the Family Child Care community?

G. Anything else that you would like us to know?
